

RECENT LAUNCH

Engine: DI 16 900HP V8

Gear: ZF5001-A 2.19:1

Boat 44' Calvin Beal

Builder: Stewart Workman, SW Boatworks, Lamoine, Maine

Finisher: Gil Simmons, Friendship, Maine

From the owner:

“So far I love the engine, boat combination. The Scania 900 V8 pushes the 44 Calvin really well, light or loaded.

27 knots top end with an easy 20 knot cruise. And I am burning about the same amount of fuel as I did in my old 40 footer (RP 40' with CAT E Model 800hp).

She's really smooth and quiet.

Offshore I'm burning between 80 to 100 gallons for a long day. Pretty similar to my other boat, which is impressive considering how much bigger and heavier my new 44' boat is.”
